

THE HEATHER REPORT

MAY 2016

A LISTING OF PREDOMINANT AIRPORTS & FLIGHT ACTIVITY
WITHIN THE FSECONOMY WORLD

Welcome to the latest edition of the Heather Report, the following lists reflect recordable airport activity within the FSEconomy world. The first series (Major & Top 100) ranks all airports in the world. The next series (Top 25's) ranks airports by their lot size against others of the same size.

How to Read the Numbers:

Example:

Rank	Trend	ICAO	Result	Location
19	↓	55J	168/138(3)-7/+5	Fernandina Beach, Florida, United States

Rank = Major & Top 100 section, how airport ranks against all other airports in the world.

= Top 25's by size section, how airport ranks against all other airports in class.

↓ = Indicates whether the annual average of operations has increased (↑), decreased (↓) or remained stable (-) compared to the prior month.

168 = Average number of monthly operations derived from the last twelve months of operations.

138 = Last month's (May) operations.

(3) = The number of lots at this airport or (S) for Seaplane Base.

-7 = The number of operations either up or down from the previous month's (April) annual average.

+5 = The number of operations above or below the previous month's (April) operations.

Major Airports, by ICAO

Rank	Trend	ICAO	Result	Location
19	↓	55J	168/138(3)-7/+5	Fernandina Beach, Florida, United States
25	-	BIKF	151/127(3)±0/-33	Keflavik, Iceland
49	↓	CYQX	105/43(3)-4/±0	Gander, Newfoundland, Canada
32	↓	CYQY	136/58(3)-7/-30	Sydney, Nova Scotia, Canada
15	↓	CYVR	204/168(3)-3/+3	Vancouver, British Columbia, Canada
31	↓	CYXY	138/45(3)-12/-20	Whitehorse, Yukon Territory, Canada
23	↑	CYYC	161/298(3)+17/+183	Calgary, Alberta, Canada
33	↓	EDDH	133/126(3)-2/+21	Hamburg, Germany
